

## Astro 421 Homework: Start easy to get into the swing of things

S+G refers to the textbook

- 1) S+G 1.3 and 1.8 both about stellar luminosities and a re-introduction to magnitudes
- 2) S+G 1.4 Energetics of nuclear burning
- 3) S+G 1.12
- 4) Briefly explain why the light from galaxies is dominated by different types of stars as a function of age and star formation rate.
- 5) Give a short description of the 3 of the differences between elliptical and spiral galaxies in an observational and physical sense.
